WORK EXPERIENCE

Pasha Bank Georgia

Front-End Engineer

Tbilisi, Georgia

Mar 2022 - Present

- Developed features for web applications using React, Vue, TypeScript, REST APIs, GraphQL, Tailwind, Nextjs, Vite, Strapi, Figma
- Collaborated with project stakeholders and team members to ensure seamless performance and high-quality delivery
- Resolved numerous technical issues through meticulous debugging, optimizing system performance and enhancing overall user satisfaction
- Modernized an outdated Vue.js project, optimizing build times and improving page rendering performance by 70%
- Integrated and transitioned a Vue.js project into an existing React/Vite framework, ensuring seamless functionality and compatibility

PROJECTS

IBERIA Georgian Restaurant *Next.js, Tailwind CSS, Strapi.js, Square, Typescript*

Currently working on the IBERIA Georgian Restaurant project, collaborating closely with business stakeholders to understand their needs and bring their vision to life. This role has allowed me to develop and refine key skills essential for commercial website development, including integrating payment systems, menus, online ordering, contact features, and implementing a headless CMS.

React Native Banking App Prototype *React Native, Expo, Tailwind CSS*

<https://github.com/NKvara/Native-Bank-App>

My colleague and I collaborated on this project to deepen our knowledge and explore the React Native development process. Through this learning experience, I gained a stronger understanding of backend integration and worked with native features for both iOS and Android platforms. Additionally, I designed an intuitive interface with consistent UI/UX elements, focusing on creating a seamless and user-friendly experience.

Personal Portfolio Website *NextJs, React, Tailwind CSS, Framer Motion*

<https://github.com/NKvara/Portfolio>

Currently designing and developing a personal portfolio website aimed at showcasing both my technical expertise and creative vision. The project features a unique, interactive design inspired by early operating systems, blending nostalgic elements with modern functionality. This innovative approach not only highlights my skills in web development but also demonstrates my ability to create engaging and memorable user experiences.

EDUCATION

Caucasus University

BS Computer Science

Tbilisi, Georgia

2019 - 2023
